

Welcome to Moving On for NVivo 12 (Windows/Mac)

NVIVO 

ABOUT THE COURSE

NVivo 12 Moving On combines a flexible self-paced approach with virtual interaction by an experienced facilitator and insights from your peers.

This course builds on the NVivo Fundamentals course which is a pre-requisite for Moving On, and is designed for those who need to analyze unstructured or qualitative data such as:

- ✓ Researchers from academic, government, not-for-profit and industry environments
- ✓ Post-graduate and undergraduate students
- ✓ Research faculty management
- ✓ Librarians

Learning outcomes

- 1 Understand the value of building effective node structures
- 2 Work more efficiently with classification data
- 3 Work with text analysis queries to explore and code textual data
- 4 Integrate survey data and cross-tabulate
- 5 Explore patterns with coding queries
- 6 Deepen your analysis process by linking and grouping data
- 7 Learn to transcribe using NVivo Transcription

Course outline

Week 1:

Work on the sample or your own project with trainer facilitation through the forum

Week 2:

Attend a “live” webinar session with an NVivo trainer scheduled in three time zones

Weeks 3 and 4:

Continue to access the course content to further explore your learnings.

NOTE: The instructions to join the course and webinar will be emailed 3 days prior to Week 1. The course is then open for one month from the course start date.

NVivo trainers

Trainers' facilitation and coaching is in English.

 Find out more about our [Platinum trainers](#).

Areas covered

- Moving On in NVivo 12
- More about survey data
- Introduction to NVivo Transcription
- When to use File Classifications;
When to use Case Classifications
- Adding variables to your project by importing classification sheets
- Thinking and writing in NVivo Pro and Plus
